

Block-Moving Puzzle

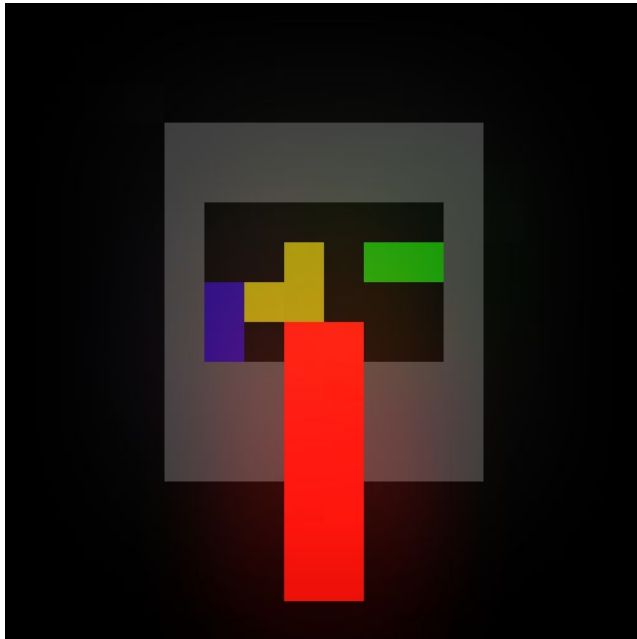

***Objective/Mechanics:** Enter the key (red block/rectangle) all the way until it by moving the other colored blocks/pieces.

***Number of blocks/pieces:** 6 (2 blue vertical rectangles, 2 L-shaped yellow figures, 2 Green horizontal rectangles)

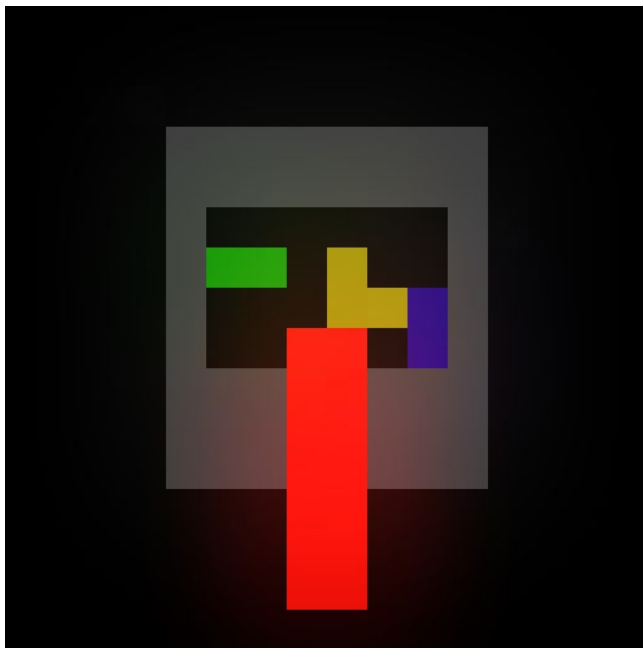

***Cooperation:** As with the whole game, the puzzle is presented in different ways to each player so they can work together in order to solve it. Each player can ONLY move the blocks that he/she can see. The presented information to each player is as follows:

VR Player view (Blocks ONLY available/movable by VR Player)

Touch Player view (Blocks ONLY available/movable by the tablet/touch player)
